STALWART RADIANCE SOLUTION CORPORATE PROFILE

STALWART RADIANCE SOLUTION is a private limited company established in 2012, based in Kuala Lumpur. Main business core for SRS are providing the best of Information and Communication Technology to the potential clients. Being formed as a 100% Bumiputra controlled company, SRS has been involve and participate in providing the highest quality ICT technical support service not just to the government, but also semi-government, institution, schools and private sector.

In addition, our capabilities, not just providing the technical support, but we also engage ourselves to become a complete office management supplier. We work with the best and closely with all major suppliers and some manufacturer just to ensure you procure the best there is, available in the market.

Over the years of our operation, we have the capabilities in expanding ourselves especially in providing new technologies or to invent or re-invent any kind of ICT related jobs or projects. Our experience in dealing with some major ICT equipment vendor, and our proven track records in doing trading related jobs or projects has become one of the main criteria why SRS is being chosen among others.

The company's activities mainly focus to the IT Trading & ICT Services. As we're also building a good relation with our client, we also venture into office solution business. All of this can be divided into three sections, Total Office Solutions, ICT Trading and Services and others office equipment products. These areas will identify with the products and services provided by the company.

Total office solutions

- Office equipment & furniture
- Office Automation & Stationeries
- Paper Products

IT Trading & ICT Services

- Computer Hardware and Software Suppliers
- Networking LAN/MAN/WAN
- Software Development / Web-hosting Solutions
- Web Designing
- Surveillance System (CCTV & CCTV over IP)
- Door Access
- Queue Management System
- Message Board
- IT Maintenance for Personal, Business & Government
- IT Training and Consultancy

SRS is heavily involved in using Information Technology in achieving better things in life and making it easy for people to live. We are much focused in IT implementation and the use of Contents, Communication, Data, Design and Architecture and related services within our specialization areas.

SRS Information Technology services comprises of the following areas as follows:

- Software Application and System
- Computer Networking
- Supply and Trading
- Security – Biometric Authentication System

12. Software Application and System

- Software application development;
- System integration;
- Work group and knowledge management solution;
- Corporate e-mail, Internet and WEB based internet solution;
- Group ware and office automation system; Document imaging solution;

B. Computer Networking

- TCP/IP and emerging Intranet and Internet protocols;
- Network design and modeling;
- Network management;
- Fiber and UTP cabling;

C. Supply and Trading

- Software and licenses; Computers and servers;
- Computer and multimedia peripherals;
- Networking products and peripherals;
- A/V and digital multimedia solution

D. System Advisory and System Development

- Document / Knowledge management system
- Biometric – Computer Lab Management System (Bio-CLM)
- Biometric – Electronic Time Attendance System (Bio-e-TAS)
- Intranet and Internet Corporate e-mail
- Intranet Bulletin Board
- Internet Leave Application System
- Human Resource Information System
- Project Monitoring System
- Electronic Corporate Scheduling and Calendaring
- Training Information Management System
- Electronic Attendance Registration System
- Leased Line, ISDN and Dial-up internet solution
- Internet and corporate e-mail integration
- Workflow application system development Automatic Fax System

SRS represents various products through our long business relationships with both International and Local suppliers, and provides complete IT services which include

Consultancy, Design, Supply, Delivery, Installation, Testing and Training for all of the products as follows:
List of products supported, but not limited to:

12. Supply of Computer Hardware and other peripheral equipments:-

IBM PCs and Netfinity Servers
Hewlett Packard, Dell and Compaq PCs, servers, printers and scanners
Dell, Acer, Compaq and Twinhead laptops
3-Com, D-Link network equipments
Internet WebRamp
Textronic Colour printers
InFocus LCD and DLP projectors
Sony Digital Camera / Video Camera and peripherals
Axis and Merit Lilin IP Network Camera

B. Supply, setting-up and commissioning of Software and Software Licensing

(i) Software from Microsoft Corporation such as:-

Microsoft Windows NT4.0 Server/2000/2003
Microsoft Office 2000/XP/2003
Microsoft SQL
Microsoft NT Workstations
Microsoft Windows 95/98/2000/XP/2003/Vista

(ii) Network Management and Security Software Solutions

Scan Mail for Microsoft Exchange Server
Scan Mail for Lotus Notes
Trend Virus Control System
Inter Scan Virus Firewall
Trend Inter Scan Web Protect
Tivoli IT Director, IBM
Check Point Firewall Enterprise Security Management
Session Wall-3 internet and intranet protection
Norton Antivirus and Utilities software
Digital Persona Biometrics Security Solution

C. Development Environment

Platform – Windows NT, UNIX, Linux, .NET
Database – Oracle, MS SQL, Sybase, Access
Development Language – Magic, Visual C++, Visual Basic, Java, HTML, ASP
Client Environment – Microsoft NT Workstation, Windows 98, Windows XP

D. Application Development

As part of our complete offering to customers, customized application development for various business disciplines are provided. Application development consists of:

Analyze Functional specification
Understanding of Operational specification
System Design
Develop Pseudo-code

E.Services offered Inclusive of:

Hardware Supply and Delivery

Hardware supply and delivery includes:

- Supply
- Delivery
- Installation
- Testing
- On Site Maintenance

F.Consultation

Consultations provided focus on:

- User Requirement
- Project Scope
- Design Requirement
- Design Brief
- Functional Requirement
- Design Specification
- System Architecture and Data Modeling
- Implementation Phases

G.System Integration

System Integration is the key component in most of our project. This includes

- User requirement based on Project Brief/Project Scope
- Identify product, protocol, database, platform and application involves
- Network Design
- User Interfacing Requirement
- Functional Requirement for Integration and Interfacing to other sub systems
- Operational specification/mode of operation

Operation and Maintenance

As part of our comprehensive offering, we also operate and maintain all projects delivered on behalf of the customers. These include operation of Command Centre, Network Operation and Management, Financial Consolidation and Reporting and so on. This is very important because we should be able to operate, maintain and manage our equipment effectively and efficiently both in terms of technical or financial aspects. We are able to provide solution to customers complete with operation and maintenance and associate operation cost based on a specific timeframe.

Other Services

Local Area Network (LAN) and Wide Area Network (WAN)
Corporate Intranet, Internet System, Homepage and Internet hosting
System prototype, development and consultancy
Training on Lotus Notes development and administration
Computer and System maintenance

Audio Video Equipment and Services

SRS established in 2012, as an exclusive distributor for sound & communication system both in Singapore and Malaysia.

We specialize in :

Public address system
Sound Reinforcement System
Close Circuit TV System
Service Intercom System
Open Conference System

Major Service

Sales and installation of PA system and Pro Sound equipment.
Sales and integrate Service Intercom, CCTV, SMATV & MATV, Open Conference, AV System.
We design and install the equipment according to the clients' needs and demands.
Servicing and maintaining the equipment

Business & e-Government Solution

Electronic Document Management Solution /Doc Controller

- Potential Users:
 - Engineering / construction / project engineering / company secretary.
- Benefits:
 - Manage documents, protect data privacy, controlled environment in user request information and limit users and guest access document.
- Clientele:
 - KV-MRT Project Under Prasarana Berhad
 - CMC Engineering Sdn Bhd, Colas Rail Asia (France) & Uniway (UK).
- Features:
 - Upload and manage project document centrally.
 - Project document available for project team members and is accessible from anywhere anytime.
 - Invite external user to view project document through Document Transmittal.
 - Search project document quick and efficiently.

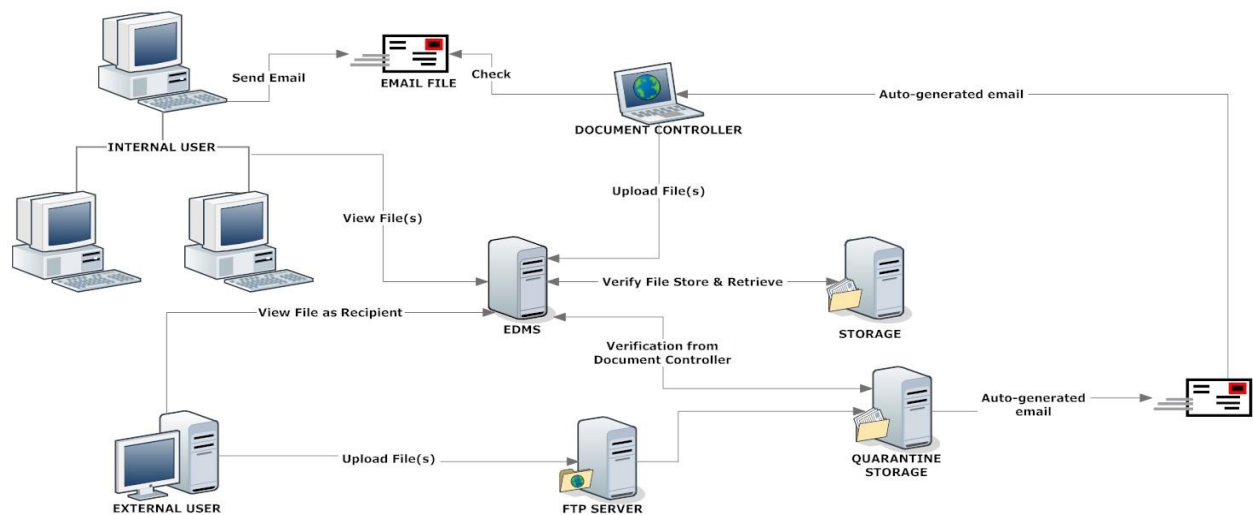

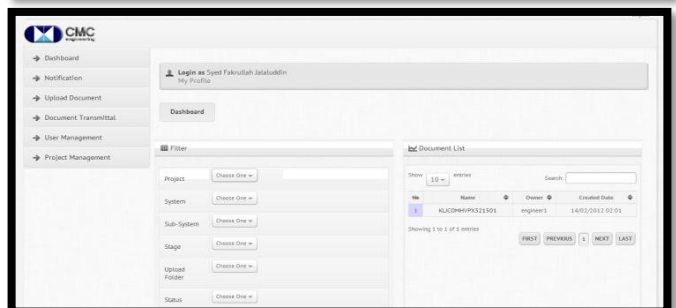

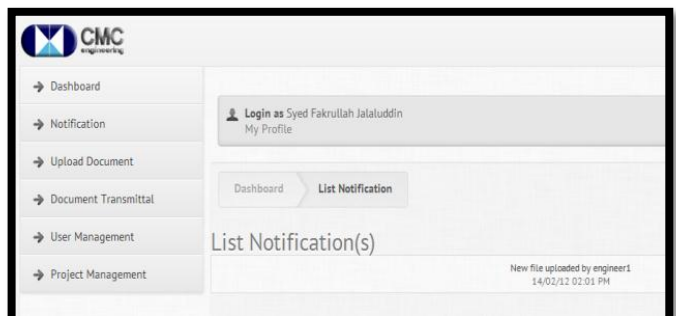

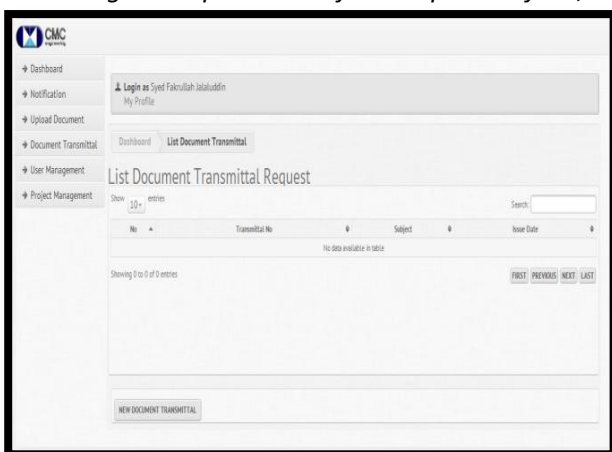

Diagram explanation of EDMS process flow, and how does it works.

E-Learning

- Potential Users:
 - Learning Institution / Training House / Large Organization With Specific Training – HR needs
- Benefits:
 - Enhance Training Delivery Methods, More Efficient Way to Handle Organizational Training; Reduce Total Cost of Ownership
- Clientele:
 - Ministry of Human Resources (National Dual-Training Vocational System)
 - Ministry of Science Technology (e-Content grant)
